To Whitney Benefits Trustees and Staff,

I received loans from the Whitney Foundation from the fall of 1972 to the spring of 1976 and attended the University of Wyoming that entire time. With this help and working work-study at college and summer jobs, I funded my degree in Accounting.

As I moved during my working years, I realized what an amazing gift an interest-free student loan was and how rare it was to find such a foundation/loan program in other communities. By providing this loan program, Whitney Benefits assisted me in getting a great college education which lead to wonderful job opportunities.

When I was getting my loan money, the Whitney office was located at the YMCA. It seemed like a small operation at the time. It has been amazing to see how Whitney Benefits has expanded and enhanced the Sheridan community over the years.

I will always be grateful for the assistance from the Whitney Foundation.

Sincerely,

Bonnie Reimers Zowada
